Background

Lucky Rabbit is a much dedicated **meme** bringing entertainment to everyone struggling with the current market state. Providing unlimited fun and benefits within the community through exciting Play To Earn games.

Everyone must have heard about Miniclip games and likely Lucky Rabbit gathers the motivation to create a GameFi space where the holders shall be eligible to earn themselves rewards from the games.

Christmas is nearing and so is our **Lucky Rabbit Launch, MUCH rewards** wait for the community.

The major aspect of our project is highly focused on profit generation and entertainment

Abstract

The concept generated on high profit making and adapting the progressive technology to provide fundamental benefits to every individual who loves gaming. A meme integrated with the verdict profit fighting the bear.

A space with many memes across different chains, much P2E to explore and in the midst of all, Lucky Rabbit brings the 90's feel where the childhood of many spent playing Miniclip games. Here, the Rabbit is rewarding every player who loves games.

In order to fulfill the vision of Lucky Rabbit, the community needs to unite to give the Rabbit possible push to succeed in giving the community a needed platform to Learn/ have fun and of course earn some rewards in the form of BUSD.

Values

1. Transparency

Lucky Rabbit is decentralized and community focused. The mission stands strong to introduce a complete space where the holders can get an easy passive income from games. To maintain a smooth relation, Lucky Rabbit will encourage open communication.

2. Trust

The current market state hindered greatly leaving us to a freezing crypto winter with fear index being at the peak stage. Likely, Lucky Rabbit is stepping in with the motivation to provide the ideal safe space for everyone who is a fan of entertainment.

We are audited by _____ ensuring the trust of our community.

Also, Certik Audit is in plans for the later phases.

3. Longevity

Lucky Rabbit is a long-shot runner which is not stepping out to die out. The development will be regarded as the primary key where delivery will be guaranteed. The community gets to be a part of this long journey with many benefits for everyone.

4. Community

The best kept for the last - **COMMUNITY**. Lucky Rabbit targets the utmost entertainment to its family. Keeping this in concern, we will be introducing a voting platform at the later stage where the holders will have the opportunity to give Lucky Rabbit the best path via voting.

We are not specifically a DAO or a community driven token but the suggestions are always beneficial since it's for our profit so - the community gets to vote on their set of choice at later stages.

Ecosystem

a. GameFi

Lucky Rabbit t will be having a huge space resembling to Miniclips but here, the time given to play the games will also shower passive rewards.

1% from the tax will be used for the P2E rewards in the form of BUSD.

b. NFTs

Lucky Rabbit will be deploying a Genesis NFT collection of 4040 unique arts which in phase 3 will be integrated with the P2E games.

Something unique about the collection? They'll be tradable and of course get you a ticket to even higher profit returning games.

c. Voting Platform

Lucky Rabbit integrates a voting consensus for the community to suggest on the direction the project should head to.

The holders will have every right to drop in their votes for the ideas that work best. Also, the platform shall have a discussion section where the creative ideas can be discussed and accordingly work together for what happens to be the best decision for Lucky Rabbit.

d. Token Burn

The play with the total supply will be boosted for a demand with a total of 40% token burn with no private sales and no team shall hold any tokens beforehand the launch.

The Circulation supply will be well estimated to keep the pace on the demand considering the token price.

Lucky Rabbit Protocol

The Rabbit sets a low tax of 3% where the division is:

1. Marketing - 2%
2. P2E Rewards - 1%

Note: Applicable for both Buy/Sell

1% tax - used for the P2E rewards in the form of BUSD

e. Staking Platform

The L. Rabbit Staking offers:
- high ROI,

-no withdrawal fees and
attractive user friendly interface.

The L. Rabbit staking is one top-notch developed platform where the tentative returns is the best compared to the ones in the market atm.

Safe, secure and transparent.

F. Rabbit Swap

Extending the convenience to the community, the team introduces a swap with efficient input to the holders.

Fastest swap, no third party linking for the purchases and secure transaction is all acted upon the Rabbit Swap.

Note* The delivery on the swap and staking will be the initial product delivery to the holders which will be boosted with marketing push.

Marketing

Keeping the current market in consideration, Lucky Rabbit will be extending the major concern on the marketing aspect where the marketing shall be at a pace and stable longer to keep the momentum steady.

Initially, every strategy necessary where:

- Twitter campaign
- Influencer Collab
- Calls and twitter promotions
- and Possible exposure

These will be required to carry forward the initial ignition and likely with every launch and update a proper timing with marketing shall be in concern to not let the hype die.

Lucky Rabbit is a profit Generative meme with its utility and shall shine in the longer haul.
